

EXPORT NURSERIES

FR. DELMOTTE

Hundelgamschensteenweg, 388,

GENBRUGGE - GHENT..

BELGIUM..

January 1938.

SPECIAL PRICELIST OF HYDRANGEAS HORTENSIS; Young plants for growing on, or cuttings.

L.S.

In the last time, the number of varieties of Hydrangeas has coming so great, that it is very difficult to do a good choiche within it.

Therefore it has been necessary, that a serious firm, only offers those varieties, who have really a commercial value.

We have thought in this way to be obliged to preconceive two conditions when composing our assortment:

- 1.- Each variety offered, must be, as far as possible, a good, easy grower.
- 2.- " " " " " as easy as possible for forcing up purposes.

Only when a variety realises the two above said conditions, we have thought to be autorised to add them to our assortment.

You will does not find, in our assortment an immense number of varieties but it will be clear, that those we offer, will given the most guarantee to have full satisfaction.

Trusting to be favoured with a trial order, we hold ourselves at your disposal for any further information.

Believe us in the meantime, Dear Sir,

Yours faithfully,

Export Nurseries Fr. Delmotte, Gendbrugge.

=====

PLEASE NOTE: Very important: All orders must reached us at last on the 15th March, so that despatch can be done, before the 7th. April, last date for entrance of Hydrangeas in England.

- =====

ALL OTHER BELGIAN PLANTS, BULBS, etc.

prices on demand.

ASSORTMENT:

-2-

White:

Madame Emile Moulière:

The best pure white variety for early forcing. Strong, easy grower.

Neige Orléannaise:

A very graceful variety, with cream-white flowers. Not to be forced to early. Has thin trees, but they are of an exceptional strength.

St. Bonifaz:

an early variety (as early as "Moulière") with great flowers. Beautiful white. To have any other white for clients, a few lot of them is taken with "Moulière".

Red:

Miss Belgium:

a low, strong grower. Gives great, beautiful, red flowers. Dark leaves.

Carmen:

a low, strong grower. Great copperred flowers. Extra. Car must be taken for the buds in winter: they rot easily when not staying on a dry place.

Hamburg:

one of the best varieties. Very strong. Easy to grow. Gives great flowers: dark red. Not to be forced early.

Ami Pasquier:

a unique colour in Hydrangeas: dark purple red. This colour is by some people in great demand, by other not. A very low grower with brilliant leaves.

Heinrich Seidler:

a very red variety, but not for forcing up early; the best is for May. Easy grower, sometimes difficult to form buds: therefore must be pinched early.

Mad. Baardse:

a little, low grower, beautiful variety for the summer. Red flowers, very strong.

Vulcan:

one of the nicest colours in Hydrangeas: dark red. Low grower (to low) with great flowers. Is sometimes difficult in growing.

Münster:

a low grower, with dark carminered flowers. Growing as the above "Vulcan".

N.B. The above varieties "Vulcan" and "Münster" make exception on the rule: "to cultivate only good growers". They are only add to the assortment because they have so beautiful flowers, and that it is possible by good car, to have satisfactory plants of it.

XXXXX Blue:

Gartenbaudirektor Kunert

the best blue of all, gives nice full flowers of an azure blue colour. Good, easy grower.

Deutschland:

strong variety with great violet flowers. Appreciated by the one, by the others not.

Elbe:

a good growing variety with nice full flowers: light blue.

La France:

great flowers, dark blue colour. A good growing variety, azure blue variety, strong, good growing, but not for forcing up early. The best is for flowering in May-June.

Mad. de Travouillont:

Altona:

a good growing variety (as strong as Hamburg and Europe) with light blue flowers.

Niedersachsen:

An old, but good, strong variety for later on (May-June). Gives always strong, healthy plants with great dark blue flowers.

Pink:

Holstein:

an early for forcing up. May be forced up with "Moulière". Colour: Dark pink.

Mein Liebling:

as early as "Holstein", but is a low grower. Colour: light pink.

A S S O R T M E N T : (continued)

Pink:

Europe:

as strong as "Hamburg", also not to be forced up very early. It is of an excellent commercial value when forcing for May. Great darkpink flowers.

Gertrude Glahn:

a strong, good growing variety. Colour: violet.

Schadendorf's Perle:

very strong grower, gives good budded trees. Not for early forcing. Colour: Lightpink.

La Marne:

the variety who is able to flower only in July-August. The latest variety which exists. May not be forced up. Carminred flowers.
